**Mosquito Control Program:** The town is participating in the mosquito control program by the Maryland Department of Agriculture. We are scheduled for adult mosquito surveillance and possible spraying on Tuesday nights. The program will begin May 29, 2019 and run through September 17, 2019. Surveillance is done the following way: 3 female mosquitos in 2 minutes in a landing rate count or 24 female mosquitos in a baited light trap. This will influence the amount of spaying done for adult mosquitos. If you have any complaints, please obtain the following information for each complaint: address, problem area, time of day when mosquitos are the worst, and any area of stagnant water in their vicinity. Please contact the Town Hall so information can be forwarded to the proper management.

**Programa de Control de Mosquitos:** La ciudad está participando en el programa de control de mosquitos del Departamento de Agricultura de Maryland. Estamos programados para vigilancia de mosquitos adultos y posible fumigación los martes por la noche. El programa comenzará el 29 de mayo de 2019 y se extenderá hasta el 17 de septiembre de 2019. La vigilancia se realiza de la siguiente manera: 3 mosquitos hembra en 2 minutos en una cuenta de tasa de aterrizaje o 24 mosquitos hembra en una trampa de luz cebada. Esto influirá en la cantidad de esterilización para los mosquitos adultos. Si tiene alguna queja, obtenga la siguiente información para cada queja: dirección, área problemática, hora del día en que los mosquitos son los peores y cualquier área de agua estancada en sus alrededores. Por favor, póngase en contacto con el Ayuntamiento para que la información pueda ser enviada a la gerencia apropiada.
